Bench Air Presses...

Quality and Performance and Value

For small work and small budgets

Fancort's 'C' frame bench air presses are designed with a high degree of functionality for light assembly work up to one ton. We build them so they are ready to run when you remove them from the crate. They have a die plate with tapped holes for easy tooling installation and comfortably positioned two hand safety controls for operator safety. High quality components and solid construction make these presses a great value for the price. They are available in several models with a few options to enhance their value.

Features:

- 10"x12" bed area with 8" throat and centrally located ram
- Rigid 'C' frame with 1" thick side walls to prevent flexing and allow robotic loading
- Attractive blue enamel finish and hard coat aluminum die plate with three sets of tapped holes for die mounting
- 4" stroke, 7.25" shut height
- Double acting 5" cylinder (1 ton), cushioned cap; 6" bore optional (1.4 ton)
- Dual palm controls standard
- Measures 14" x 10" x 26"; weighs 76 lbs.

Description:

Illustrated above: Press with dual pump controls, without upgrade package.

Part Number: Description:

- BP-1000U Press with dual palm controls, 5" cylinder and upgrade package (BP-ARA-100)
- BP-1000U-6 Press with dual palm controls, 6" cylinder and upgrade package (BP-ARA-100)
- BP-1000 Press with dual palm controls and 5" cylinder
- BP-1000-6 Press with dual palm controls and 6" cylinder

Part Number: Options:

- BP-ARA100 Front cover with counter and pressure gauge upgrade package
- BP-SC101 Round collar for die mounting; 1.5" dia. x 1" deep, steel and threaded on the ram
- BP-HC102 Horseshoe collar for die mounting
- BP-HCT100 Standard 'T' for use with horseshoe collar
